Special Economy Price for Customers in India: INR 2900 (MRP: INR 5,000)

Features & rules of the interesting game

- Queen is placed to the left of the king. The goal is to kill king of your any one opponent. First player to capture a king wins. Checkmate is not enough, you should capture the king! When a player is in a checkmate position, he loses his turn & if somehow he is freed up in next move, he can move again!!!
- Players must think twice ahead anticipating moves of both opponents. Players must also prevent both the opponents from checkmating each other. A player can take advantage of one opponent's position to checkmate the other, but must not allow the third player to checkmate first. Meanwhile, other player may save the checkmated player with a move that removes the

checkmate condition.
